Education Performance Team Annual Workshops

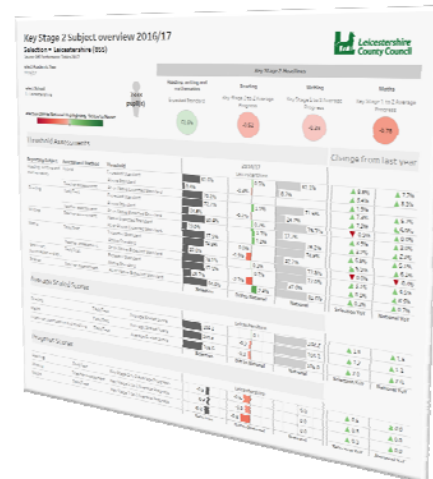

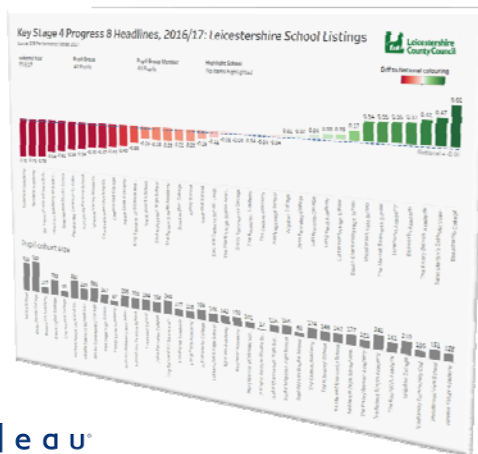

This event is included within your Annual Subscription costs 2018/19.

The Autumn 2018 Workshop will provide you with the opportunity to learn about our new reporting system, LIAISEv3. There will be a full demonstration of the system showcasing the improvements and new functionality available.

By attending you will receive information about:

➤ **LIAISEv3:** A step-by-step guide as to how to use this system, powered by the market leading software of Tableau, to support your school improvement and planning activities, including:

- The reports available and their content
- Navigating the system
- The new functionality available

Powered by
 **tableau**

- Best practice tips
- Report and data downloading options
- Future developments

There will also be the opportunity to comment on the new system and feedback on the new look and feel of our reports.

➤ **Perspective Lite developments**

Understanding how Perspective Lite can be used effectively to provide additional data analysis.

Workshop details and how to book:

- Two places allocated per school (additional places can be requested).
- Booking will be on-line this year. Book your place at [LTS Online](#)
