## 100% of last year's cohort rated the programme as excellent

Being part of the course has been life changing! I am more confident in my ability that I have ever been. I'm ready for the next step in my career and looking forward to it.

The most useful training that I have been to. Great that it covered many different aspects of leadership and was personalised based on the survey at the start. I found the coaching sessions extremely supportive. At the end of each coaching session I always came away empowered and ready to take on anything!
