

WORD AWARE: A WHOLE SCHOOL APPROACH TO TEACHING VOCABULARY FULL DAY COURSE

Word Aware is a structured whole school approach to promote the vocabulary development of all children.

Focused on whole class learning, this resource is of particular value for those who start at a disadvantage – including children with Developmental Language Disorder, Special Educational Needs and those who speak English as an additional language, but it will extend the word learning of all students.

This approach is full of practical and inspiring ideas that can be easily applied by busy classroom practitioners to develop both spoken and written vocabulary.

This approach supports children's vocabulary development from 5-11 years, but with simple adaptations, it can be successfully used in secondary schools.
